The President's Address to The Nation on the Kugwe Atrocities

**FELLOW AMBAZONIANS
DEAR COUNTRYMEN**

Yesterday we woke up to yet another sad day in Ambazonia. The senseless assassination of the Prince of Kugwe Mr. Abang Julius and the disappearance of about 60 of our compatriots (including women and children) with about 30 of them severely wounded and feared dead in bushes, butchered by gunmen led by the notorious General Efang's gang. These hoodlums went to the farms, which they all mastered so well, identified and shot many poor villagers on their feet and used machetes on them. We have always held the belief that no true son of a woman with the blood of Ambazonia flowing in his veins, will be delighted to afflict the souls of our own people and communities with so much agony and anguish, but the scale of the massacre in Kugwe yesterday has shocked my conscience.

My people, I am alarmed, I'm grieved and in so much pain, as in all instances where the blood of our innocent people including mothers and children is wasted by the bravest amongst us who were supposed to protect us. This is accelerated by forces of evil at a time when our common LRC enemy is visibly weakened by our unprecedented resistance; at a time when we are supposed to be focused like a laser and win this existential fight against the two wars declared on us and hasten our victory cry at the Mongo bridge, such nefarious actions of some internal spoilers, offer a convenient cover for LRC to escape global condemnation and responsibility for her atrocity crimes.

Why should anyone who has survived the sword of the enemy die by the sword of his own brother or son? From Ngarbu now to Kugwe, La republic is bent on hiring and contracting criminal gangs dressed as Ambazonian fighters to help French Cameroon in their mission to terrorize our people, attack our ARF camps or butcher our civilians. However, be it known this day that sooner or later, every one of us, leader or follower shall be held accountable for his or her actions in this revolution whether good or bad.

Dear Ambalanders,

Let me promise our enemies this one thing that, even this new LRC tool of recruitment by infiltration shall be defeated by the righteous power of our collective resolve for a free Ambazonia. These Paul Biya and his Ambazonian allies, pretending with our anthem and flag, but fighting our people and fellow fighters instead of the enemy, will surely fail.

Whether it's those Ambazonians serving in high places in French Cameroons or those regime barons masterminding this cowardly strategy or the few cheap activists who stage political theatres on lies to get some of ours killed. Take the Case of Mr. Abdulkahrim whom I have no relationship with except on the subject of the Swiss negotiation, is now being deliberately targeted with malicious propaganda just for him to get killed or arrested again. This is a monstrous generation of bare-knuckle activists working hard to promote our enemy's agenda. These now spin so much hatred amongst our people, what devilish mission that is to our cause. What about our own hitherto genuine fighters in the revolution who now appear to have been bought over to serve as proxies of our Enemy;

Be it as it may, we Ambazonians should be ready to take up any challenge posed by these shameless legions of evil on every side.

Unfortunately, my people, the Enemy in the house has grown vicious fangs and it's time to name and shame it in public, for our children not to become their choicest victims, for the survival of our endangered communities. I call on all Local Government communities in Ambazonia to purge and defund groups that are a threat to their peace and security. Your interim government will help you in every way possible.

Yesterday, I consulted with my Security Chiefs and received first-hand intelligence on the heinous and callous perpetrations in Kugwe. And, I have decided that it is time we all as a collective undress this cancer of betrayal which Enemy Agencies have drenched their animal instincts, to spread across the land. What we have now is an Enemy Enterprise chiefly orchestrated and sponsored by French Cameroons, enjoying the loyalty of its criminal agents in Ambazonian. We cannot say it all here, but we shall be quick and swift in action this time against every new threat against our Revolution. This should be the last time, any community in Ambazonia should mourn at the hands of so-called Ambazonian fighters. The people and our beloved Nation must say never again.

Fellow Ambazonians,

I feel your pain, I share your grief and above all, I know what you expect from your Interim Gov't. The wailing and mourning shall not shut us down, nor make us lose sight of the enemy. Therefore, I decided to order as follows:

I have created a commission of inquiry to fully investigate this incident. The commission is led by the Secretary of State for Home Affairs Mr Ambrose Etienjeh. The commission has 7 days to put their report of their findings on my table.

In the meantime, All thirteen County Defense Chiefs, my Joint Chief of Staff, Under Secretary of Intelligence, Sec of State in charge of the DSS are hereby ordered to mobilize their services

and constitute a search party for the wounded or missing bodies and the 30 + kidnapped victims of the Kugwe saga;

Our Ground Commanders & Security Operatives are hereby ordered to put forward an Emergency countywide Response Mechanism for effective protection of the most vulnerable communities against future criminal attacks.

All County executives & LGA Heads are reminded to coordinate with my office as we launch this weekend our *Ambazonia War Draft* which will serve as our final war chest and a solidarity fund, to be placed at the disposal of the *Emergency Response Teams* in all 13 counties. This is a three-in-one fund to win the war against LRC, COVID-19, and AMBA internal threats. An expeditious program to re-arm our valiant Forces and fire up our strategies in all fronts at this crucial time.

The late Prince Abang Julius, and all those who have disappeared should be paid the last respect they deserve, especially the slain Prince. The search for our abducted sons and daughters of Kugwe must be relentless.

Fellow Countrymen and women,

Our entire self-defense infrastructure has been put on maximum alert against all internal threats. The Interim Government intends to employ all its might in this struggle to fully restore Revolutionary Order in our restoration quest. We cannot do this without your support. Let me assure you again that as long as you stand for the people of Ambazonia, for the total and unconditional independence of Ambazonia, your interim government will stand with you to the best of our abilities especially in sour moments like this. This is not a pleasure-ride but we keep inching forward amidst all these strange adversities.

***Long live the FRA
God bless Ambazonia***

***H.E. Samuel I. Sako, PhD
President of British Southern Cameroons
Federal Republic of Ambazonia***
