Ref. No. FRA/0540/18

Date: January 4, 2019

TO: HCRR  
Attn: Senator Penn Terrence

Dear Compatriots,

Thank you very much for your correspondence dated December 6th, 2018 as well as your follow up mail dated, December 10th, 2018.

Before I proceed, permit me point out to you that, my attention has today January 3rd, 2019 been drawn to these correspondences for the very first time. Specifically, through my Secretary of State for Education and Strategic Collaboration as opposed to coming from my Chief of Staff as per addressee coordinates on your original correspondences.

After due consultations with my Chief of Staff, it will appear he doesn't remember receiving this correspondence nor its reminder mail of December 10th 2018 prior to today, January 3, 2019. However, I'm glad to having received the correspondence from my secretary of state for Education and Strategic Collaboration as aforementioned.

Though cabinet has within the last three months been discussing on and have documented minutes of a similar future project, it is my pleasure to note that there are some concerned citizens out there who have been thinking in the same direction

like the Interim Government. To this effect, permit me make the following remarks and observations:

- From your previous schedule, it will appear everything is behind schedule now as I write
- The IG as at now is not fully informed about your Ambazonia “House of Representatives or Parliament”, its origin, activities, composition and mandate. More information to enlighten us at the interim government will be very helpful so that we can find a better way of working together in moving our revolution ahead
- What are the particular concerns about our revolution that led to the conceptualization of this venture from your side? Have other options for addressing such concerns been sorted out prior to choosing the current approach?
- What agenda is envisaged for each of the various planning phases prior to the conference in addition to the actual conference agenda?
- Given that the interim government already scheduled a similar meeting for February 2019 and also putting into consideration that our current aforementioned concerns at the Interim government would be addressed by your team, will there be a possibility to synchronize your proposals with our goals within our “ All Ambazonian Stakeholders Consultative Conference (AASCC) of February 2019”?
- I'm very sure you all are aware and mindful of the various resolutions that emanated from our recent joint security council meeting, following the most unfortunate killing of our restoration forces in Guzang, Batibo. As a result of this and other unfortunate and painful incidents, we at the interim government have for the time being temporarily suspended all forms of collaboration with some nationalist platforms and their leaders.

It will be our utmost pleasure at the interim government to have you address our  
aforementioned concerns and remarks in your next correspondence.

Best regards

Yours truly in service to Ambazonia,

---

*H.E. Samuel I. Sako, PhD*  
*Acting President of British Southern Cameroons*  
*Federal Republic of Ambazonia*
